THE 2007 IET YOUNG WOMAN ENGINEERING APPRENTICE OF THE YEAR AWARD NOMINATION FORM

What is The 2007 IET Young Woman Engineering Apprentice of the Year Award?

The 2007 IET Young Woman Engineering Apprentice of the Year Award celebrates the very best young female engineers in the UK, not only highlighting their achievements but also encouraging others to enter the profession.

The winner will be presented with her award, along with a cheque for £750, at a national prize-giving ceremony in London in January 2008.

Assuming an ambassadorial role, the winner will be invited to participate in high profile events throughout the year, attended by influential people offering excellent networking opportunities and raising her profile within the engineering industry.

The 2007 IET Young Woman Engineering Apprentice of the Year Award is valued by the engineering industry and will highlight the winner's achievements to future employers and enhance future employment prospects.

What are the Judging Panel looking for?

Short-listed candidates will be invited to attend an interview in London in early October 2007. The judging panel has representatives from the world of engineering, The IET and the media. They are looking for someone under the age of 30 who is already holding a responsible position as a leading professional engineer and has the flair, charisma and experience which enable her to present engineering as an exciting career and entice others to follow in her footsteps.
